# BACKSTORY

**After genetically engineering a powerful but dangerous bioweapon to fend off alien invaders, humanity falls victim to its own creation. You wake up in the year 2084 as one of the last surviving Earth's soldiers, the fate of humanity resting in your hands. Will you preserve mankind's legacy or will our race end up consumed by the sentient Cell?**

# KEY FEATURES

## Co-Op Shooter

Embark on a variety of missions and explore derelict ships alone or in teams of up to four players.

## High Enemy Variety

Fight a wide variety of mutants and monsters on your adventures. Exploit their weaknesses and survive or die trying.

## Reconfigurable Monsters

Face off against enemies capable of reconfiguring and strengthening their bodies with rogue technology and other, smaller monsters.

## Living Pet Weapon

Use your Living Pet Weapon's Gun Mode to blast your enemies or unleash it in its Pet Form to sever their body parts and harness the power of their biotech yourself.

# KEY FEATURES

## Weapon Modifications and Character Classes

Customize your weapon and choose between multiple character specializations to find the perfect mix for your playstyle.

## Quick, Action-Packed Missions

Action-packed 10–20-minute missions are perfect for both short and longer play sessions.

## Procedurally Generated Levels

Procedurally generated levels offer near-endless replayability and ensure players get a unique experience every time they play.

## Scalable Difficulty

RIPOUT's difficulty will scale based on the number of players in the game, ensuring equally challenging gameplay for teams of all sizes.
